SECTION B: COMPANY ACTIVITIES – CONTINUATION SHEET

Please indicate how it is proposed that the company's activities will benefit the community (or a section of the community). Please provide as much detail as possible to enable the Regulator to make a properly informed decision about whether your company is eligible to be a community interest company. We would find it useful if you brought out how you think your company will be different from a commercial company providing similar services or products for individual, personal gain.

<p>Provide ongoing mentoring, Peer Support groups and Community Interaction opportunities</p>	<p>The Peer Support & Mentoring service enables individuals to receive ongoing, monthly support, whilst taking action on, and reaching their goals. These groups will empower individuals by becoming self supporting & self sustaining as they take on leadership & facilitation of these groups, themselves. ALF staff will provide supervision & guidance for those who take on group leadership roles.</p>

<p>Provide affordable, budget driven, cost, or pro bono services to beneficiaries of the service.</p>	<p>We provide services to the beneficiary group at a subsidised rate (at least 50% lower than the going market rate for equivalent services) and, in some cases, free of charge. We do this by negotiating with likeminded service providers who accept reduced fees in support of their community. We will be able to maintain and expand our capacity for providing these low rate and pro bono services, by acquiring funding from grant making bodies, fundraising activities and corporate donations</p>
